# FUNTICO ▶
## PRESENTS

**$100,000+ prize pool tournament
in the Q2 of 2024.**

The prize pool for this tournament includes $100k+ of value. Prizes feature epic NFTs from tons of beloved collections, including a Pudgy Penguin! There's also some amazing Funtico NFTs and $TICO up for grabs! If the price of an NFT in the prize pool fluctuates, we'll add extra NFTs or $TICO to bring the total back over $100k!

This tournament takes place in Formula Funtico – the all-new kart racing game on the Funtico platform. Each participant will fight for a place on the leaderboard versus NPC opponents, trying to get the top finish time.

To enter, players will need to use a Golden Ticket from their Funtico inventory. These non-transferrable tickets can be obtained from giveaways in the Funtico Community, but purchasers of the Necromancer Summoner NFT will automatically receive 3 tickets.

**FORMULA FUNTICO**

Once you consume a ticket, it's go time! Race against the clock to get the best time and finish in the top spot!

Players can hop in the Formula Funtico demo and practice to their hearts' content, but the tournament will be held on a totally unknown Formula Funtico course. Get ready to think fast and compete on a track you've never seen before!
